DECISION

The MLMC Committee would like to clarify the following:

6.2.2 Quantity, handling and storage

[...]

Refueling is not allowed during the practice sessions, so, this arrangement will be made only for the race (~~1 single refuelling~~) under the following conditions:

- This service will be invoiced by the ELMS Competitor to the Michelin Le Mans Cup Competitor at a maximum price of 700€ (including equipment and staff) per competition,
- A deposit will be charged by LMEM to cover possible damages to the refuelling system (3000€)

[...]

12.2.2 Pit stop procedures

c) Refuelling

A refueller can intervene to put fuel into the car (which must, during this time, be resting on its wheels) only when:

- The deadman valve attendant is in position and operating the valve;
- The fire extinguisher attendant is equipped with an extinguisher.
- The car has been grounded

During this phase:

A maximum of three persons, without any tools except for those for manual cleaning or tyre/brake checking, may perform operations, and ground the car, provided that no bodywork panel is removed, and no part of any sort is brought to the working area.

A maximum of two industry representatives and/or technicians are permitted to check the tires and/or the brakes but may not perform any other function.

Any decision taken by the Michelin Le Mans Cup Committee is not subject to appeal.
