## PURPOSE OF THE REQUEST

We would like to ask for clarification about the following article of the current Michelin Le Mans Cup regulation:

### 6.5 Tyres

#### 6.5.1 Definitions and general conditions

Each tire must be identified barcode (Technical list n°54). Competitors are responsible of getting the equipment needed to read these identification labels. All references must be declared to the **Technical Delegate at least 48 hours before the start of the Competition**. This list of designated tires will be notified to the Stewards at the beginning of the Competition. The list must comply with list according to Appendix 4.

The start of the event begins with the first free practice. 48 hours before the start of the event, in the case of 1 race in Barcelona, Wednesday by April 14th, 2021 at 11:10 am during the morning session. In order to comply with Article 6.5.1, all teams must have the tires made available by Michelin by this time in order to pass on all information to the technical delegate.

To make the process easier for the tire manufacturer and the teams, a modified time window would make this possible.
