Yellow flags & neutralisations

In order to further inform competitors and drivers of the analysis process used by the officials to look at alleged yellow flag infringements, below are the steps being taken.

Yellow flags mean danger.

- Concerning yellow flag infringements, the Stewards may penalise a driver if the driver fails to meet any of the following criteria:
 - Not slowing down at the entry of the zone.
 - Not slowing down at the point(s) of the incident(s).
 - Or not slowing down from the point(s) of the incident(s) until passing the green flag.
- Drivers are reminded that whilst there may be a car(s) stopped or an immediate hazard, they will not know if, after the incident, there is debris on the track or other hazards.
